Alcare® Extra Foaming Antiseptic Handrub
Broad Spectrum Instant Foam Alcohol Hand Sanitizer

PRODUCT DESCRIPTION
A hypoallergenic, foaming alcohol-based healthcare personnel handwash with fast acting, broad spectrum antimicrobial activity against pathogenic micro-organisms. In a time kill study Alcare® Extra killed up to 99.9999% of tested organisms in 15 seconds.

WHERE TO USE
Ideal for use in all healthcare settings where a highly effective and moisturizing sanitizer is needed.

For external use only. Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

INSTRUCTIONS FOR USE
• Spread across all part of hands until dry
• No rinsing required

FEATURES | BENEFITS
---|---
Healthcare Personnel Handwash | Provides assurance that product meets a recognized performance standard on hands established by the FDA
Complete broad spectrum activity | Highly effective formula is fully tested and proven to eliminate up to 99.9999% of 50 different pathogens
Superior Foam Quality | Rapidly and easily rubs across hands, providing the user with complete control of the product and preventing dripping and splashing often associated with the use of alcohol hand sanitizers.
Rich foam is extremely pleasant for frequent use in-between hand washing, encouraging maximum compliance.
No Residue on Hands, Invisi-Feel™ | Excellent antimicrobial efficacy by killing 99.999% of MRSA and VRE in 5 seconds
Clinically proven moisturizing formulation | Prevents skin dryness and leaves the skin feeling smooth and refreshed after use
Chlorhexidine Gluconate (CHG) Compatible | Alcare Extra does not decrease the residual activity of CHG
Hypoallergenic | Carefully formulated to minimize the likelihood of any adverse allergic reaction from occurring during use
Glove compatible | Can be applied to hands prior to wearing latex, vinyl or nitrile gloves
ECOLOGO certified | Provides customers with assurance that the products meet stringent standards of environmental leadership
The product contains 95% renewable or biobased content; USDA BioPreferred certified | Product ingredients have been carefully selected to help reduce the use of fossil fuels, reduce emissions and improve environmental sustainability
STATUTORY REGULATIONS
This product is manufactured and labeled in compliance with the Federal Food, Drug and Cosmetic Act issued by the Food and Drug Administration (FDA).

SAFETY DATA SHEETS
For Safety, Environmental, Handling, First Aid and Disposal information, please refer to the Safety Data Sheet which can be downloaded from https://www.debmed.com/safety-data-sheets/.

SHELF LIFE
This product should be stored in a closed container at room temperature. Please consult the label for expiry date.

CERTIFICATIONS
ECOLOGO™ Certification
Alcare® Extra was certified according to the UL ECOLOGO™ Standard UL 2783. ECOLOGO™ certified products are certified for reduced environmental impact. ECOLOGO™ certifications are voluntary, multi-attribute, lifecycle based environmental certifications that include a product that has undergone rigorous scientific testing, exhaustive auditing, or both, to prove its compliance with stringent, third-party environmental performance standards.

USDA BioPreferred
Alcare® Extra was certified by the United States Department of Agriculture to have 95% biobased content and to comply with the USDA defined thresholds for biobased Personal Care products.

Suitable for food handling environments
The product use as per usage instructions, does not influence the quality and safety of foodstuffs. Alcare® Extra has been assessed using the HACCP hazard analysis methodology. The following critical control points were identified and are controlled as follows:

1) Impact on smell and taste of foodstuffs - The formulation has been independently tested according to Sensory Analysis - Methodology - Triangle Test EN ISO 4120:2007 and proven to not have the potential to taint food.
2) Possible toxic effects of ingredients - An independent oral toxicological evaluation was performed and concluded that any foodstuffs which may contain trace amounts of the product, are unlikely to cause any adverse toxicological effects.

NSF E3 rated: The formulation of Alcare® Extra complies with the NSF International standards for Nonfood Compounds / Hand Sanitizing Products (Category Code E3).

QUALITY ASSURANCE
DebMed products are manufactured in facilities which follow Current Good Manufacturing Practice (cGMP) and/or Cosmetic GMP requirements.

All raw material used for production undergo a thorough quality control process before being used for manufacturing in SC Johnson Professional’s high quality skin care products.

PRODUCT SAFETY ASSURANCE
Skin Compatibility Test
Using the Duhring Chamber test method, the results have been validated by a dermatologist to show the product to have good skin compatibility and is non-irritating.

Toxicological Approval
The product has been independently assessed for human toxicity and product stability. It is declared safe for intended use, meeting all relevant regulatory requirements.

Skin Hypoallergenic Risk Assessment
The formulation has been assessed by an independent toxicologist to prove that this product has been formulated to minimize the likelihood of an adverse allergic reaction occurring and meets the requirements for being described as “Hypoallergenic” (Delphic Solutions Ltd, UK).

Clinical Moisturizing Study
The formulation was compared to a broad spectrum hand sanitizer gel in an intensive use setup that mimics the long term and very frequent hand sanitizing procedures common in certain environments such as health care. In this study, Alcare® Extra showed a moisturizing effect, while the hand sanitizing gel caused skin dryness (Bioscience Labs, Inc., 2015).

COMPATIBILITY TESTS
CHG Compatibility
Alcare® Extra does not negatively affect the residual effect of CHG.

Glove Compatibility Test
Using EN 455-2:2000, the product was shown not to have a deterioration effect on the physical properties of latex, vinyl or nitrile gloves.
